GIGA UPS

To ensure your maximum workmanship and to minimize your service cost and hassel, GIGA have designed a reliable back up power system with state own Techonology and through the years of R&D Process.

GIGA Line Interactive Technology base UPS is a unique moduler Type machine, which increases Performance, reliability and downsize any abnormalities of electrical/Electronic equipments.

Features

- Line Interactive Off-Line Design
- Input power Correction
- Compact size, lightweight
- Milli Second transfer time
- LED status display
- Status Indication
- Two state battery alarm
- Wide input voltage Range
- Built in AVR
- High efficiency
- Generator Compatibility
- Auto-Shoutdown & Auto-restart (when power re-instit)

Application

- Computer and computerized equipment
- Medical Equipment
- Laboratory Equipment
- Telecommunication equipment
- Satellite & Broadcasting equipm ent
- Other microprocessor base sensitive equipment
